Transform this text into a assembly string declaration:
"First thing to be sure of when doing assembly are:
1) Keep the line of code's length under 80 characters.
2) Write clear and readable comments.
3) Learn skills key to being readable."

mystring:
.ascii "First thing to be sure of when doing assembly are\n",
"1) Keep the line of code's length under 80 characters\n",
"2) Write clear and readable comments.\n",
"3) Learn skills key to being readable.\n",
